

V-RESEARCH GmbH Industrial Research and Development

WE ARE

An R&D service enterprise located in the mountain region of Vorarlberg / Austria that pushes industry to the top of competition through development and application of cutting edge technologies with respect to data science and digitization of product development processes.

WE WANT

- a **Computer Scientist** who is passionate about development of software prototypes of innovative methods at the interface of science and industry
- a **Software Engineer** who fancies design and implementation of our frameworks for development of customer specific solutions (C#, Python)
- a **Team Player** who can drive the development of innovative software solutions in a team and is a fan of agile development

WE OFFER

- a vivid atmosphere for working
- flexible working hours and the opportunity for part-time employment
- diverse work with a lot of design freedom and further education possibilities up to a doctorate
- the opportunity to be part of a rapidly growing high tech company
- a job at a location where others go for holidays - there are opportunities for skiing, hiking, surfing and much more close by!

If you can identify yourself with two or more of the roles described above, send us your application:
